Dear Hiring Team,

I am a motivated and adaptable IT graduate with a strong foundation in software development, data science, and cloud computing. I am currently a junior in C# programming and passionate about building data-driven solutions. I love quickly mastering new technologies, managing responsibilities independently, and consistently delivering on deadlines. Seeking to join a forward-thinking organization where I can grow as a developer and contribute to impactful projects.

Core Skills

- C#
- Data Science
- Cloud Computing
- Software Development

Education & Certifications

Academic Institute of Excellence (AIE), Midrand, GP

National Certificate: IT Systems Developer (NQF5) – Big Data Engineering and Analytics
2024

- Focus on software development, cloud computing, and big data analytics
- Practical training in C#, Python, SQL, and system architecture
- Applied data science principles and machine learning in project environments

Data Science Program – Certificate

Completed in 2023

- One-year intensive program focusing on:
 - Data analysis, visualization, and reporting
 - Machine learning using Python and R
 - Database management and predictive modeling
 - Real-world projects involving large datasets
